

# Where did our 2019 leavers go?

At the end of every academic year we are always very sad to say farewell to our Year 13 students. They all excelled in their final examinations and we are very proud to celebrate their successes.

We help and support our students to find the right progression path for them once they have finished their sixth form studies.

This year 15 students successfully gained employment and went straight in to the world of work, 11 students were fortunate enough to enrol onto an apprenticeship scheme or continue their education with other training providers, 10 students have chosen to take a gap year, where they will gain work experience, go travelling and prepare themselves for applying to university next year.

68 students have begun their university life, below is a summary list of the universities they are attending and the degrees they will be undertaking.

We wish all students well, and wish them every success for the future. Please keep in touch!

<b>Aberystwyth University</b>	Artificial Intelligence & Robotics	<b>Liverpool John Moores</b>	Adult Nursing
